When a student brings AI work

From the training session “When a Student Brings AI Work to a Session”

1. RULES

“What does your instructor allow for this assignment?” Not sure? Check the syllabus. Still unclear? The student asks the instructor.

2. GOAL

“What do you need to be able to do on your own?”

3. EXPLAIN

“Walk me through it.” Start the session where the explanation breaks down.

SAY THIS

“Show me what you asked it, and let’s see what it got right.”

NOT THIS

“Did you just copy this?”

TURN AI ANSWERS INTO PRACTICE

- Cover the answer and have the student try the next step.
- Ask the student to find and fix one mistake.
- Have the student make a similar problem and solve it.

Bring it to your coordinator when a student asks you to finish graded work, the rules are unclear close to a deadline, or a student seems to be in trouble.
